

This is concerning your new broadcast service known as LPFM, your proposition to expand this service could effect me by taking away my local KLOVE radio signal. This station serves our family by providing positive and encouraging music that our whole family loves. Our community would also suffer a great loss if this station were not able to be broadcast locally. Finally this station provides music and informaton to us that benefits our faith and our lives and is safe for our whole family to listen to. Please reconsider letting the LPFM stations take priority over current FM translator service. We need KLOVE locally. Thank You!
